

ICO Galileo Galilei Award

2020

<http://e-ico.org/activities/awards#galileo>

Rules applicable to the ICO Galileo Galilei Award: The Galileo Galilei medal:

The Galileo Galilei medal of ICO is awarded for outstanding contributions to the field of optics which are achieved under comparatively unfavorable circumstances. The outstanding contributions in the field of optics should refer to:
Fundamental scientific questions or problems, or
Research or development of optical methods or devices, or
Scientific or technical leadership in the establishment of regional optical centers.

The award consists of: The Galileo Galilei Medal, a silver medal with the portrait of Galileo Galilei donated by the Italian Society of Optics and Photonics.
Assistance in travel to present an invited paper and receive the award at the next ICO Congress or another ICO meeting mutually agreed to by the Bureau and the award winner,
A cash donation
Special attention and appropriate measures of ICO to support the future activities of the award winner.
