

ICO/ICTP Gallieno Denardo Award 2022

<http://e-ico.org/activities/awards#ictp>

Rules applicable to the ICO/ICTP Gallieno Denardo Award:

It is reserved for young researchers from developing countries (as defined by the United Nations), who conduct their research in a developing country. The award will be given to scientists less than 40 years old (on December 31 of the year for which the award is given), who are active in research in Optics and have contributed to the promotion of research activities in Optics in their own or another developing country.

The award consists of: The ICO gives a cash amount of US\$1000 and a diploma. The ICTP invites the winner to attend a three-week-long Winter College at Trieste at the next appropriate opportunity, and to give a seminar on his/her work when appropriate. (ICTP will pay for travel and living expenses.)

Do you know talented researchers?

If you know of any or have talented researchers that are eligible to this award, then please submit a nomination letter to:
